

| Data table metadata                            |  |      |         |   |
|--|--|------|---------|---|
| File name(s)                                   | Rootball   |      |         |   |
| Date created                                   | 2007   |      |         |   |
| Date last updated                              | 23-06-2020   |      |         |   |
| Number of records                              | 121  |      |         |   |
| Projection                                     | EPSG:3005 - NAD83 - BC Albers  |      |         |   |
| Data table structure and attribute description |  |      |         |   |
| Attribute name                                 | Definition   | Unit | Type    | Attribute description   |
| <i>Id</i>                                      | Identification code of the point where a rootball of a downed tree is located. |      | Integer | Numeric value for each point.   |
| <i>Year</i>                                    | Year the data was recorded.  | Date | String  | <u>Values:</u><br>yyyy. E.g. 2008.<br>NULL = neither the original meta-data nor accompanying report provided the year of creation.                      |
| <i>Month</i>                                   | Month the data was recorded.   | Date | String  | <u>Values:</u><br>1-12. E.g. 2=February.<br>NULL = neither the original meta-data nor accompanying report provided the month of creation.               |
| <i>Day</i>                                     | Day the data was recorded.   | Date | String  | <u>Values:</u><br>1-31. E.g. 15=the 15th day of a month.<br>NULL = neither the original meta-data nor accompanying report provided the day of creation. |
